ANDREAS ROSE and his wife Cecealia, are believed to have landed in New York, from England at the age of 24 years, landing on 14 June 1710. He remained there that summer, married Cecelia, (marriage is recorded in the Hall of records, in downtown New York City). They removed to Millestone Valley where Church records of the birth of their children are recorded. Among them is Johannes, Baptized 28 October 1713 as was also his sister Elizabeth, witnesses were Jacob Wickoff and wife. they then moved a short distance to Ten Mile Creek, near Somerville and then later may have changed Church location as the next record was on Rariton, at Baltis Pickells house.

THE NEW YORK SUBSISTENCE LIST

This list was compiled from the "journal" of Palatine debtors to the British government for subsistence given either in New York City or in the Hudson River settlements, from their landing in 1710 to September, 1712. The list was found in the Public Record Office, C. O. 5/1230 and was corrected from the accompanying "ledger," C. O. 5/1231. As it seemed advisable to include some indication of the number in each family and since limitations of space forbade the inclusion of the six notations at various times given in the journal, only two notations have been given here, that is, the first in 1710 usually and the last in 1712 normally. Thus, with "Abelman, Johann Peter 2-1, 2-0," the size of the family signified is

two adults and one child under ten years of age; by 1712 the child had died for we have noted only two adults. All children over ten years of age were given the full allowance for adults and were therefore not distinguished from more mature members of the family. Where only one notation of family size appears, the presumption is of death, or in the case of women, of marriage.
